What	Why	How																						
<p>Embed and analysis of documents</p>	<p>Document Cloud is a system to upload, share, embed and analyze documents. It is developed by New York Times and is today run by Investigative Reporters and Editors.</p>	<p>www.documentcloud.org</p>																						
<p>Create a new project</p>	<p>Click "+ New Project". You can upload a whole series of documents at once by subsequent clicking on the "+ New Documents" when you are in your new project.</p> <p>Remember to make the documents public in connection with the upload, if that's what you want. You may have documents private, shared with others or public.</p> <div style="display: flex; justify-content: space-around; margin-top: 10px;"> <div data-bbox="459 869 727 922" style="border: 1px solid gray; padding: 2px 10px; background-color: #f0f0f0;">+ New Documents</div> <div data-bbox="842 869 1066 922" style="border: 1px solid gray; padding: 2px 10px; background-color: #f0f0f0;">+ New Project</div> </div>																							
<p>Make a note</p>	<p>When you open a document, you can add notes. Click on Add a Public Notice</p> <div data-bbox="443 1093 817 1348" style="border: 1px solid gray; padding: 5px; background-color: #f0f0f0; margin-top: 10px;"> <p>DOCUMENT TOOLS</p> <ul style="list-style-type: none"> ● Add a Public Note ● Add a Private Note ■ Redact Document Edit Sections ▶ Edit Document Information Edit Document Data </div>																							
<p>Select Range and enter text.</p>	<p>You get a selection tool, an intersection, to highlight the relevant part of the document, and you can add title and explanation. You can later go back and edit - even after the note is embedded.</p> <div data-bbox="443 1541 1152 1966" style="border: 1px solid gray; padding: 5px; margin-top: 10px;"> <div style="border-bottom: 1px solid gray; padding-bottom: 5px;"> <p>Untitled Note</p> </div> <table border="1" style="width: 100%; border-collapse: collapse; font-size: 8px;"> <thead> <tr> <th style="text-align: left;">Navn</th> <th style="text-align: left;">Arsten - direktører + forv.chefer</th> </tr> </thead> <tbody> <tr> <td>NIELS HOJBJERG</td> <td>Forvaltning</td> </tr> <tr> <td>CHRISTIAN ANDERSEN-MOLGAARD</td> <td>BORG.M.AFD.RADHJSET</td> </tr> <tr> <td>FLEMMING NIELSEN</td> <td>BORG.M.AFD.RADHJSET</td> </tr> <tr> <td>HANS NIKOLAJSEN</td> <td>BORG.M.AFD.RADHJSET</td> </tr> <tr> <td>PETER PEDERSEN</td> <td>BORG.M.AFD.RADHJSET</td> </tr> <tr> <td>JAN BEYER SCHMIDT-SØRENSEN</td> <td>BORG.M.AFD.RADHJSET</td> </tr> <tr> <td>PER JENSEN</td> <td>BORG.M.AFD.RADHJSET</td> </tr> <tr> <td>VIBEKE ELISABETH JENSEN</td> <td>BESKJEFT.FORVALT.</td> </tr> <tr> <td>STEINAR EGGEN KRISTENSEN</td> <td>SOCIALFORVALT.</td> </tr> <tr> <td>BJARNE HØYER ANDRESEN</td> <td>STABEN.SOC.OG.BESK.</td> </tr> </tbody> </table> <div style="margin-top: 10px; border-top: 1px solid gray; padding-top: 5px;"> <div style="display: flex; justify-content: space-between; align-items: center;"> Delete Cancel Save as Draft Save </div> </div> </div>	Navn	Arsten - direktører + forv.chefer	NIELS HOJBJERG	Forvaltning	CHRISTIAN ANDERSEN-MOLGAARD	BORG.M.AFD.RADHJSET	FLEMMING NIELSEN	BORG.M.AFD.RADHJSET	HANS NIKOLAJSEN	BORG.M.AFD.RADHJSET	PETER PEDERSEN	BORG.M.AFD.RADHJSET	JAN BEYER SCHMIDT-SØRENSEN	BORG.M.AFD.RADHJSET	PER JENSEN	BORG.M.AFD.RADHJSET	VIBEKE ELISABETH JENSEN	BESKJEFT.FORVALT. MEMO

<p>Embed note</p>	<p>You can embed the entire document what you rarely use. Or you can embed a note:</p>  <p>Once you have selected the note, you get an embed code that you can copy and paste into a Web page:</p> 	
--------------------------	--	--

<p>Analyses of projects in overviewproject.org</p>	<p>You can analyze a single document or the whole project. You will then be automatically sent to overviewproject.org where you can download the document or the whole project to an analysis of key words and other things. Overview Project supports different languages as Swedish.</p>

With DocumentCloud you can in an article embed a small part of a document, and if you then click on the embedded bite, you can see the entire document.

This can be done in different ways. Here is a Danish example:

Also in this example, the Washington Post has been using Document Cloud - note that in the fourth section are some lines of text marked with gray background color - try clicking on them and see what happens.

If you want to "just" embed documents in a website, Document Cloud also an opportunity:
